

Pathogen-Mediated Modulation of Innate Immunity

Call for Application:

BioMed X will establish a new research group in the field of microbiology and immunology.

- 1 Group Leader (m/f)
- 2 Postdoctoral Researchers (m/f)
- 2 Research Assistants (m/f)

BioMed X is interested in understanding the key molecular and cellular mechanisms of pathogen-host interactions which could lead to new general concepts in the treatment of a variety of human diseases associated with a de-regulated immune response.

Application deadline: **April 2, 2017.**

About BioMed X

The BioMed X Innovation Center is an exciting new collaboration model at the interface between academia and industry. At our center, distinguished early career scientists recruited from all over the world are working jointly on novel pre-clinical research projects in the fields of biomedicine, molecular biology, cell biology, diagnostics, and consumer care.

This research project is sponsored by **Boehringer Ingelheim.**
